*- A Medical News Program -*

**SUNDAY, MARCH 27TH @ 5:30 P.M.**

On Sunday, March 27th, at 5:30 p.m., WCBS-TV will be running their periodic American Health Front medical news program in which I will be featured along with 11 other health practitioners who will be discussing various health issues. In my portion of the short segment, I will be discussing the importance of prevention in periodontal disease in addition to all the current technology being employed.

I hope you will tune in and enjoy the short segment.

As always, your feedback will be appreciated.

Yours truly,  
Victor M. Sternberg, D.M.D.
